GTC AWARDED MARCORSYSCOM PHASE II PROJECT - DEVELOPMENT OF STATE-OF-CHARGE TECHNOLOGY FOR ZN/AIR BATTERY SYSTEMS

Atlanta, GA. May 23, 2008 -- GTC has been awarded a MARCORSYSCOM contract to develop and demonstrate a state-of-charge (SOC) technology for Zinc-Air batteries that accounts for environmental factors (temperature, humidity) and storage factors (O₂ exposure times) beyond the discharge profile. The SOC technology should be small and have a low cost impact on the overall Zinc-Air battery. Power consumption for the SOC technology should be minimal over the life of the Zinc-Air battery.

For more information, contact Dr. Ash Thakker (770) 803-3001.
